

## **Animal Health Product Update**

### **Bio-Mos the original natural solution to intestinal health**

Bio-Mos is the original natural solution to intestinal health issues. It promotes good bacteria and builds natural defenses thereby maximizing animal health and performance.

Gut health is critical for raising profitable animals. Bio-Mos is a natural, healthy and cost effective way to achieve this and is included in diets of all species.

Bio-Mos is tried and tested. Over 500 trials and a 17 year market presence demonstrate that Bio-Mos works day in and day out.

Quality control is important to you, and Alltech is committed to manufacturing reliable and traceable ingredients. Bio-Mos is ARC certified. The ARC quality control system is exclusive to Bio-Mos and based on true biological activity, guaranteeing consistency with every batch.

### **Performance**

Bio-Mos has a defined mode of action and benefits all species by fundamentally maintaining gut health and stability. Bio-Mos is also allowed for use in organic diets by select associations.

Bio-Mos supports:

- ✓ Animal health and livability
- ✓ Feed efficiency and weight gain
- ✓ Meat and egg weight/yield
- ✓ Food safety
- ✓ Efficient nutrient transfer from mother animals to young
- ✓ Natural meat, egg and milk marketability
- ✓ Reduced use of therapeutic treatments
