

**New Hay/Forage Product:
CEAttachments Releases New Line Of Hay Bale Spear**

Source: CEAttachments news release

CEAttachments announces four new bale spears for farm and agricultural industries. Used on any brand or model skid steer loader, these new EDGE bale spears feature bolt-in tapered tines that allow you to move round, square or rectangle bales up to 4,000 lb., depending on the model. Use your skid steer to it's full advantage and even move two bales at one time with optional bolt-on uprights on the triple bale spears!

The single round bale spear features one 42" tine and two 12" tines, with the capacity to move round bales up to 2,200 lbs. The double round bale spear has two 42" tines and can move round bales up to 3,000 lbs.

The triple square bale spear features three 26" tines with the capacity to move square or rectangular bales up to 3,000 lbs. Another triple bale spear features three 42" tines with the capacity to move square or rectangular bales up to 4,000 lbs. Triple bale spears also have optional bolt-on uprights that allow two large square bales to be moved at one time.
